

U-TYPE TUBULAR IMMERSION HEATER FOR BOILERS, GAS AND ELECTRIC WATER HEATERS **GRB**

- wide range of use
- easy and convenient installation
- fastening: M14x1,5 case or 5/4" flange
- according to EU standards

TUBULAR IMMERSION HEATER

HEATING ELEMENTS

U-TYPE TUBULAR IMMERSION HEATER FOR BOILERS, GAS AND ELECTRIC WATER HEATERS **GRB**

No.	L	B
1	235	45
2	340	50
4	340	50
5	410	45

No.	L	B
3	340	40
6	410	40

GRB heating elements are popular and economical heaters for various domestic appliances. They are a perfect solution for boilers and gas/electric water heaters, both capacity and pressurized ones. The production technology applied ensures cost-effectiveness and high quality of functioning in water.

Copper pipe applied – do not use for stainless steel water tanks.

SPECIFICATIONS

No.	Index	Name	Power	Volt.
1.	W006	IMMERSION HEATER 0,9 U	900W	230V
2.	W008	IMMERSION HEATER 0,9 U 1,4 U	1400W	230V
3.	W010*	IMMERSION HEATER 0,9 U 1,4 U 5/4"	1600W	230V
4.	W012	IMMERSION HEATER 0,9 U GRB 1,6 U	1600W	230V
5.	W018	IMMERSION HEATER GRB 2,0 U	1400W	230V
6.	W020*	IMMERSION HEATER GRB 2,0 U 5/4"	2000W	230V

*6/4" or bigger flange on demand
