HEATING ELEMENTS  
WITH THERMOSTAT

# CHROME IMMERSION HEATER WITH THERMOSTAT FOR BATHROOM RADIATORS

## GRBT TSE

No.	L	A	B	D
1	300	16	7	1/2"
2	330	16	7	1/2"
3	365	16	7	1/2"
4	490	16	7	1/2"

GRBT TSE chrome bathroom heating elements are a new position in ELIKO's range of products. A bathroom heater is becoming a more and more popular solution for heating bathrooms. When connected with a bathroom radiator, it is a perfect set for drying towels and bathrobes, for example.

COTHERM thermostat and a fuse preventing the elements from overheating ensure the reliability of the product. The heater can be used for most bathroom radiators available in the Polish market.

### DANE TECHNICZNE

Lp.	Indeks	Nazwa	Moc	Nap.
1.	W032C	HEATER CHROM GRBT 0,3 1/2"	300W	230V
